IT Specialist (Certiport) – Database Exam Passer

WORK EXPERIENCE

Software Quality Assurance , Xurpas Inc.

April 2026 – Present

- Conducted functional, integration, and regression testing across web and mobile applications using structured manual test suites.
- Logged, tracked, and managed software bugs using Jira, collaborating directly with developers to accelerate fix cycles.
- Authored test cases and technical documentation to enforce software quality standards prior to production deployments.

Software Quality Assurance (OJT) , Xurpas Inc.

September 2025 – December 2025

- Jira Ticket Management: Assisted in creating, logging, and tracking software defect tickets using Jira to streamline issue resolution with developers.
- Website Testing: Executed functional, integration, and regression testing on the MWSS website to ensure reliability and performance before release.
- Technical Documentation: Authored structured test cases and site documentation for the MWSS website to maintain high quality standards prior to production deployments.

PROJECTS

Full-Stack Developer | CommunityOS & Animal911

- **Animal911:** Built a centralized animal rescue platform with dedicated UI portals for rescuers, shelters, and adopters. Integrated AI to streamline rescue reports, automate emergency case triage, and match pet adoption preferences, alongside real-time notifications.
- **CommunityOS:** Served as the sole developer for an active, live SaaS platform engineered for Homeowners Associations to replace fragmented Excel spreadsheets and social media communications. Centralized complaint management, announcements, vehicle/pet registrations, and PayMongo payment gateway integrations for online transactions—currently serving active community users.

KEY SKILLS

Frontend

- React
- Next.js
- CSS3
- JavaScript
- Typescript
- Tailwind CSS
